SEYMOUR GOODMAN

"Information Security: Policy, Processes, and Practices"

Your information security is dependent upon the infrastructure used by business and government organizations. With news headlines revealing startling breaches in security, this book is more timely than ever. The latest in the brilliant book series, *Advances in Management Information Systems*, Goodman and his co-editors codify how organizations and nations manage - and mismanage - the protection of information and the systems that produce it.

Dr. Seymour Goodman

Professor International Affairs & Computing
Co-Director, Center for International
Strategy, Technology, and Policy (CISTP)
Co-Director, Georgia Tech Information
Security Center (GTISC)
